

Getting started

How You Might Have Gotten Here

1. Relume Site Builder

You used ‘Export to Figma’ on Relume’s Site Builder to add your Sitemap, Wireframe or Style Guide to Figma.

2. Figma Community

Or, you found the Relume Figma Kit while exploring **Figma community**, attracted by our 1,500+ components and wireframes to jumpstart your workflow.

Start using Relume's components now

Tip: Manually assembling components in Figma is possible, but it’s much slower than using Site Builder.
