

Getting started

Step 3. Import Your Project into Figma

Now that the Relume Figma Plugin is set up, you can easily add your project into Figma.

Instructions

- 1. Choose a page under **WORKSPACE** where you want to add your content. We've created default pages for you.
- 2. Select **Style Guide**, **Wireframes** or **Sitemap** to insert them into your Figma file.

Tip: Wireframes sync with the Style Guide in your file. Import styled Wireframes by importing both your Style Guide and Wireframe pages,

You're now ready to start customising and designing with Relume
