

Next Steps

Build Your Website in Webflow

Once you've finalised your Figma design, head back into Relume to start the export process to Webflow. This seamless integration helps you translate your designs into a functional Webflow site. For detailed guidance, watch the tutorials on the next slide.

-  [Figma to Webflow with Relume →](#)
-  [Import Relume Project into Webflow →](#)
-  [Setting Up Your Webflow Style Guide →](#)

Tip: The **Figma to Webflow** app is not developed by us, and it does not integrate well with Relume; we advise against using it.
